How to Do Agency-Based Voter Registration

☐ Have a supply of voter registration cards in English and Spanish and reference materials you may need at your field agency.

☐ Complete voter registration cards with clients and/or staff. See instructions on how to fill out voter registration cards on reserve side.

☐ Return completed registration cards to the Institute by Monday, October 20th (3rd Floor, Room 320B, School of Social Work Building). There is a collection box for completed cards. Institute will ensure cards are stamped and mailed.

To vote on November 4th voter registration cards must be returned to the Institute by Monday, October 20th or hand delivered to the applicant’s local registrar of voters no later than October 28th. However, you may continue to register clients to vote throughout the year, and we will collect voter registration cards at the Institute through the end of April.

Ensure that cards are FILLED OUT COMPLETELY. Voter registration cards that have not been filled out completely including the date will result in clients not being registered to vote while leading them to believe that they are registered.

VOTER LINK

To confirm if a person is already registered to vote or to locate polling location see the Connecticut Secretary of State’s website
