A. Meeting with UCONN SSW Administration  
   i. Bree’Ana reached out this morning to administration and feels that at this point  
   students concerns around faculty of color retiring is not a priority and that student  
   should get together and form an agenda and reach out to the larger student body to  
   try to gain the attention from administration to hear their concerns.
ii. Morgan wondered if using this platform and involving other students, there can also be other issues addressed alongside concerns of recruitment for faculty of color.

iii. Bree’Ana will begin a google doc for the students to draft an agenda and not bombard administration with students concerns but to make them aware there are things going on in the school that students would like feedback on and how they are working to address these concerns.

iv. Bree’Ana suggested an open hour solidarity, to the student body to discuss issues raised. A letter would then be drafted to guide the representation of students concerns and sent to Administration.

v. Johanna stated it would be helpful and concrete to propose solutions to administration.

vi. There will be a google docs letter drafting sent to the student body addressing issues and concerns and allowing students to add to those concerns. The Letter will include issues, outcomes and invite student and admin to participate in discussion.
