Who can submit a poster?
UConn School of Social Work faculty, staff, and students (PhD, MSW, and BSW).

What is the deadline for poster submission?
Poster abstracts must be submitted to Lindsay Wessell (Lindsay.Wessell@uconn.edu) by March 10, 2020. The abstract should succinctly explain (in 250 words or less) the poster topic; describe the objective of the research being presented; explain the methods used to conduct the research; and state results, conclusions, and recommendations from your research.

Presenters are required to bring completed posters to the Hartford Public Library CCC no later than 11:00am on Monday, March 30th 2020.

What are the poster content guidelines?
Posters must display/discuss original research, quality improvement, program innovation, or other scholarly projects that have recently been completed.

We encourage posters relevant to this year’s exhibition topic: Mental Health Disparities and Stigma – Social Work Research and Practice Implications. However, all research topics are welcome!

Can I use research that I have already presented?
Yes. Posters can be “recycled” so long as the material is recent (<12 months since previously presented).

What are the poster dimensions?
40 inches (height) by 30 inches (width).

How will posters be displayed?
Posters will be displayed vertically on floor easels.

Is there financial support to produce my poster?
Yes. ORS will provide funding on a first come, first serve basis to have posters printed and foam-mounted by the UConn document production center. Presenters are required to pick up materials. When submitting your poster abstract, please indicate your request for financial support.

For information and assistance on preparing a poster presentation, visit the UConn Office of Undergraduate Research:
